

Election Communication

Spelthorne Constituency

8th June 2017

I have published millions of copies of newspapers and leaflets making the case for the United Kingdom leaving the European Union.

These have been distributed across Great Britain by hard-working, dedicated UKIP members and supporters.

If it was not for thousands of UKIP activists promoting Brexit for over twenty years, the referendum would not have happened and we would not now be on course for leaving the EU.

However, we have not left yet.

The next government will be led by a prime minister who voted and campaigned for the UK to stay in the EU.

If you give Theresa May a huge mandate, you give her the opportunity to backslide on Brexit.

To stop this happening you need Members of Parliament who believe in Brexit and who will not put political careers in front of the interests of their country and constituents.

My record proves my commitment to Brexit.

I will work tirelessly in Parliament on your behalf to ensure that Brexit is delivered and that none of my red lines are crossed. I will do this without fear or favour and without the temptation of making concessions in return for advancing up the ministerial ranks.
